

**WATCH OUT AMERICA
HERE COMES...**

SUPER 
HOOOLIGAN

Roland Sands Design is proud to bring America the “thrills and spills” of Street Bike Flat Track Racing, with the 2017 Super Hooligan National Championship Series (SHNC). We’ve selected the best events in the country to be part of the series, which aims to establish the frightening, yet rewarding craft of piloting street bikes at break-neck speeds around dirt, grass and concrete tracks. The riders are the stars and are comprised of a unique and diverse background of everyday Joe’s, Flat Trackers and Road Racers to retired, washed up Champions, as well as Nine-to-Fivers, Stunt and Motocross riders, and everything in between. It’s a no-holds-barred battle to the checkered flag on 500+ lbs. of fury. With races across the country ranging from custom bike shows and concerts to pro American Flat Track events and beach-side racing, the diversity promises a unique experience at each event. Indian Motorcycle has stepped up with banger of a grand prize, an FTR750 Factory Indian Scout GNC race bike as the championship prize. Dunlop Tires, Motul Oils, K&N Filters and Bell Helmets are also involved in a big way, bringing fat contingency checks to the competitors, rewarding heroic rides and top finishers. Watch Out America... this is Super Hooligan!

 **YAMAHA**

TRIUMPH

The spirit of hooligan racing comes from a simpler time, when you raced – and could ride home on – any bike you owned. With its roots in Southern California motorcycle culture, today's flat track hooligan racing category is rapidly gaining in popularity with riders of all ages and experience levels across the nation by offering the fun of motorcycle competition in a less structured environment. Combining the craft of custom motorcycles and racing the SuperHooligan rules are loose and limit the bikes to 750CC and up twins in stock frames with dirt track tires and no front brakes.
