# 2025 FAT BOY® GRAY GHOST

The fifth installment in the Icons Motorcycle Collection celebrates the 35<sup>th</sup> anniversary of the 1990 introduction of the Fat Boy® model—a motorcycle that became a cultural icon and one of the most recognizable motorcycles to ever roll down the road.

In 1990, a time when the motorcycle media and much of the riding public was consumed with the escalating performance of sport bikes, the Harley-Davidson® Fat Boy® model landed like a thundering heavy-metal power chord.

The Fat Boy® Gray Ghost model celebrates the enduring significance of the original “fat custom” motorcycle. At its inception intended to be a model with a limited lifespan, the Fat Boy® motorcycle has instead spanned three powertrain generations and a complete redesign of its Softail® chassis, and for 35 years has maintained its original power to impress with unmatched presence and undeniable style. The Fat Boy® is a big, bold motorcycle designed for riders who want to make a statement.

## CHROME P&A AMPLIFICATION

As part of this launch, we’re highlighting chrome accessories across the Cruiser and Grand American Touring motorcycles. Missed out on the Gray Ghost? There are endless accessory options to fulfill your customization needs when it comes to chrome including front ends, hand controls, mirrors, switch housings, collections, Screamin’ Eagle® intake and exhaust and more! Use this lookbook as a guide to build your own custom chrome motorcycle.

# BUILD YOUR CUSTOM CHROME CRUISER
